Upload and tag your images. Zoom discussion January 9th at 8:00 am Eastern US.

Inspiration

The 14th RUAC Spoon Challenge focuses on use of wood and grain orientation. There is not a specific template to follow but participants should challenge themselves to use grain patterns in their spoons.

Some ideas include:

Carve a tangential spoon with the rings dead center in bowl

~or~

Carve a radial spoon with a perfect heartwood/sapwood split

~or~

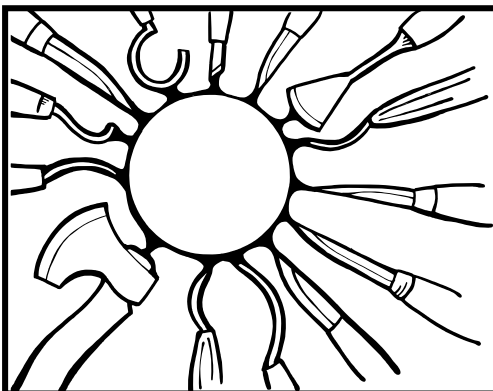

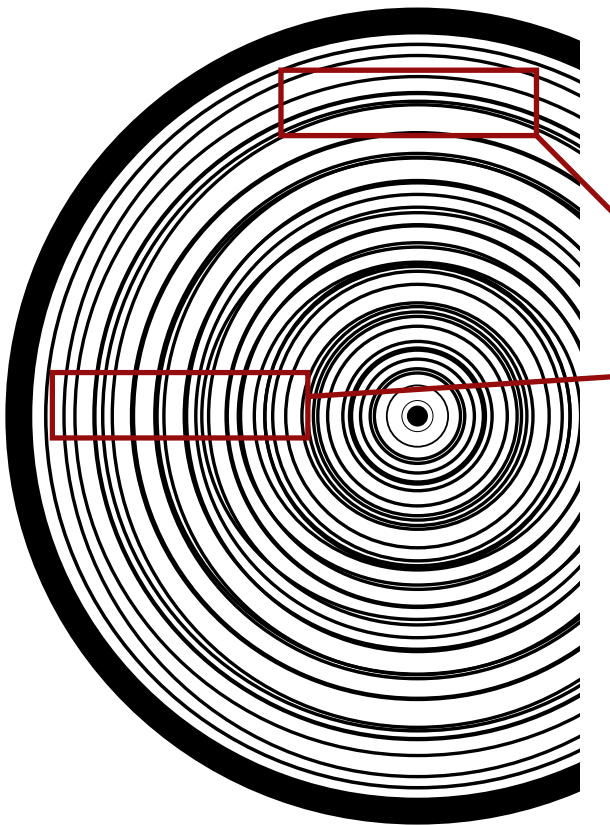

Carve a spoon from a crook and capture long grain in the bowl

~or~

Incorporate some irregular wood element and showcase it: a knot, inclusion, wavy grain, twist, bark, etc.

~or~

Decorate the spoon using the shape or grain pattern as part of the decoration.
